INSPIRED SHADES™

PRO WAND
REDESIGNED

PRO WAND

- The contemporary Pro Wand maintains a simple functionality and programming experience, with a redesigned look and connection.
- Pro Wand is a good alternative to cordless when the window or shade size makes it hard to raise or lower the shade.
- Features of the new design:

  The connection to the motor head has been improved with a larger eyelet that allows the wand handle to hang straight down without skewing to the side.

  The charging port is located at the bottom of the wand handle.

  Recharge via a USB-C charging cable.

  Wands for this system are only available in White. They will remain available with 2', 3', 4', and 5'.
