NATURAL DRAPERIES

Natural Draperies present a sophisticated and stylish way to cover large windows or sliding doors. When specifying, note that the Natural Drapery will include decorative track with your choice of rounded or rectangular profile. Because draperies install using a decorative track, valances are not needed for this product.

Natural material is railroaded to hang vertically when ordered in this style. Draperies require edge binding, which is sewn to all four sides to protect the edges and is included in the price of the drape.

Natural draperies are constructed using wave tape. Hooks attach to carriers, which glide smoothly in a traversing track while maintaining their structure when being opened and closed.
