OUTDOOR SHADE COLLECTION

Inspired Shades Outdoor Shades offer a simple, affordable solution for reducing unwanted glare in outdoor seating areas, patios, pergolas, and sun porches.

Shades are anchored by a proprietary hold down clip with cord that tethers the bottom bar of the shade to a stainless steel hold down anchor. The cord can easily be unhooked to raise the shade when not in use.

Choose from an array of colors with varying openness to allow for the right balance of glare reduction and light transmission.

All fabrics are treated with anti-microbial coatings to prevent mold or mildew. All plastic components are tested for UV resistance to direct sunlight exposure, ensuring your outdoor shades will give you lasting sun protection.

HOLD DOWN

This collection features a proprietary hold down system which comes in two parts including a hold down clip with cord and hold down anchor. Hold down clips with cord can be adjusted laterally on the hem bar, which allows flexibility in the anchor placement.

CONTROLS

Shades are operated by crank handle. The crank handle can easily be removed and stored when not in use.

STYLES

Shades are available as open roll or in cassettes. Component colors include White, Beige, Gray, Bronze, and Black.

INSPIRED SHADES™ BUDGET® BLINDS

OUTDOOR SHADE COLLECTION OPTIONS

This program offers a simplified selection of styles and controls, making it easy to find the right fit. Shades can be ordered as open roll or in cassettes with crank handle control. All shades include our proprietary hold down.
