# CLEANING TIPS

---

Shade maintenance is important and simple. Follow these easy tips to get the longest life out of your shades.

When dusting is required, be sure to use something gentle. We recommend a vacuum brush or a duster.

If there are wrinkles in your shade, you can use a hand-held steamer to smooth everything back out. Be sure to avoid direct contact with the shade by holding the steamer at least 6" away from the fabric.

If spot cleaning is required, use only water or a very mild detergent. Cleaning the shade in its entirety can cause it to shrink or leave water spots. By spot cleaning, you avoid getting the shade too wet and affecting the overall quality of the shade.

Following these tips will help to extend the life of your shades and ensure that they stay beautiful for years to come!
