# DRAPERY CLEANING TIPS

---

Drapery maintenance is important and simple. Follow these easy tips to get the longest life out of your drapery panels.

When dusting is required, be sure to use something gentle. We recommend a vacuum brush or a duster.

If there are wrinkles in your drapery panel, you can use a hand-held steamer to smooth everything back out. Be sure to avoid direct contact by holding the steamer at least 6" away from the fabric.

If spot cleaning is required, use only water or a very mild detergent. Cleaning the panels in their entirety can cause them to shrink or leave water spots. By spot cleaning, you avoid getting the panels too wet and affecting the overall quality.

Finally, all fabrics except the three colors of Arbor can be dry cleaned if necessary.

Following these tips will help to extend the life of your drapery panels and ensure that they stay beautiful for years to come!
