

# RETROFITTING ROLLER SHADES

Retrofitting is a great way to help your customers stay in budget on their new shade purchase, but upgrade to motorization later! Here are some simple tips for advising your customers about future possibilities.

---

**CLUTCH SHADES** CAN BE  
UPGRADED TO MOTORIZATION.

**What you will need:**

- control side bracket (specify original order and line number when placing parts order)
- motor
- remote
- charger

**WAND SHADES** CAN BE  
UPGRADED TO REMOTE.

**What you will need:**

- motor
- remote
- charger

**CORDLESS SHADES**  
CANNOT BE UPGRADED  
TO MOTORIZATION.

The components and tube of cordless shades are different than motorized control options.
